Websites that work for you...

Within a matter of seconds, website visitors form opinions about your company, its products and its services. That's why every website Honeycomb Creative builds is a custom website, designed and developed to quickly communicate your company's unique qualities.

Our hard-working websites include:

- ✓ **Custom design:** a distinct look and feel that leaves a memorable and professional first impression.
- ✓ **Self-serve content update area:** easy-to-use, password-protected web interface lets novice computer users update editable website content, including homepage text, news and events listings, job listings, product catalogues, sales material and more.
- ✓ **Content creation:** website copy written and edited by our professional writer.
- ✓ **Search engine submission:** website submission to Google and other major search engines.
- ✓ **Web hosting:** Linux servers for secure, reliable website and email hosting. Free hosting for the calendar year with competitively priced hosting offered the next year.

Add even more features & functionality:

- ❑ **Keep your content fresh:** Highlight recent projects, trade shows, or special offers on your website homepage. Add and update FAQs, links and client testimonials as you receive them.
- ❑ **Get interactive:** Explain complicated ideas, simplify product offerings, or give a virtual tour of your facility through interactive Flash applications.
- ❑ **Generate sales sheets:** Profile projects or sales listings and automatically generate information sheets.
- ❑ **Store important data:** Store important information: client lists, product specs and sales materials for access from home, the office or on the road.
- ❑ **Create a library:** Store documents and photos in online libraries as a resource for staff and clients.
- ❑ **Help clients find what they need:** Let clients search your products and create wish lists.
- ❑ **Manage job applicants:** Automate your human resources process with updatable job listings, online job application forms and candidate filtering.
- ❑ **Manage schedules:** Allow clients/staff to book appointments online and automate email reminders.
- ❑ **Send reminders:** Automate staff or client email reminders (e.g. appointment, training or service).
- ❑ **Sell online:** Take orders and sell your products or services through your website.
- ❑ **Speak your customers' language:** Translate your website content into multiple languages.
- ❑ **Promote online:** Advertise on Google and track results.
- ❑ **Receive payments:** Accept credit card payments online 24/7 – no merchant account necessary.
